EDUCATION

Shahjalal University of Science & Technology
B.Sc. in Software Engineering
CGPA: **3.50/4.00** (**3.74** in the last two years)

May 2023

RESEARCH EXPERIENCE

Thesis: Secure Storage of Self-Sovereign Identity (SSI) Credentials Using Solid Pod Technology

Summary: My research addresses critical security issues in Self-Sovereign Identity (SSI) management, especially the lack of secure backup and recovery procedures for identity data stored in SSI wallets. To counter this issue, design and implement a safe backup and storage solution using Solid Pod technology, allowing users to store data online safely.

PUBLICATION

WORK EXPERIENCE

DreamAspect
Internship (Flutter Developer) | [GitHub](#)

September 2021 – December 2021

- Developed mobile applications using the Flutter framework.
- Collaborated with a team to implement UI/UX designs.

PROJECTS

Web Technology Project | [GitHub](#)

A web-based CRUD application to maintain customer's orders. The system offers to manage customer profiles, food items, and orders.

Technology: Python (Django), SQLite, HTML, CSS, JavaScript, Bootstrap.

File Server System | [GitHub](#)

A file server system developed in Java that enables users to download and upload files within the same network, featuring a user-friendly GUI for managing files and directories on the server.

Technology: Java.

Solid Based App | [GitHub](#)

A Solid specification-based application that allows pod holders to log into a pod server with a web ID and manage to-do text lists by creating and deleting tasks directly on the server.

Technology: React, Node.js, RDF Turtle Format, Solid (Social Linked Data).

RELATED COURSE AND SKILLS

Courses	Computer, Data & Network Security (A+), Artificial Intelligence (A+).
Programming	Solved 500+ problems on LeetCode , CodeForces , Vjudge , etc.
Languages	C, C++, Java, Python, JavaScript, MATLAB.

LEADERSHIP & ACTIVITIES

Orbitax SUST SWE Technovent 2023

January 2023

Organizer & Editorial Team Member

SUST ACM Student Chapter

November 2021 - August 2023

Mentor

ACCOMPLISHMENTS

Digital Khichuri Challenge by UNDP, Sylhet

May 2019
